

COMPANY PROFILE

Lexington Realty International is a limited liability corporation that specializes in purchasing, leasing, consulting, development and management of commercial real estate since its inception in 1999. We credit our continued success to the management philosophy of active participation by our members in every project. Our members are from a diverse background and draw on over thirty years of cumulative real estate experience to share resources, knowledge, and expertise to successfully execute the operation of the company's client's holdings with strict guidelines and continued oversight.

We have particular expertise in restructuring distressed and under-performing properties with strong upward potential. Our staff is skilled in all areas of property renovation and management. As part of our ongoing management, we do routine analysis of building's structural, mechanical, and safety systems which enables us to identify and correct problems during the early stages.

The intensive hands-on approach by members to gain a thorough knowledge of the property and demographics of the area has successfully allowed us to operate buildings and shopping malls at peak efficiency while maintaining high quality maintenance services and safety controls. Our in-house approach generally generates a 30-50% savings overall to our clients. Our focus is to maximize the image and efficiency of our client's real estate assets, thereby providing optimal appeal to tenants with the accompanying benefit of increased property value, at or above fair market rents.

Our dedication to client needs requires placing the best interests of our clients above all else. It means being creative and objective. It means offering options and opportunities usually not available elsewhere. At Lexington Realty International, we pride ourselves on the attention we provide for each clients' unique needs. We tailor our management and marketing strategies to every individual client's situation.

With regard to leasing, our clients include "mom and pop" businesses, growing regional players and established national operators. We work to find the perfect location within our growing portfolio. We have access to a broad range of centers across demographic and geographic trade areas and can offer opportunities throughout the country. We have the patience and resources to recognize winning opportunities that conventional leasing teams often miss.

We currently own, manage and lease over thirteen million square feet of retail space, one million square feet office space and 500,000 sf Multifamily/mixed use. Our unique approach to leasing (i.e., "thinking out of the box") has enabled us to succeed, where many larger companies have failed. We recognize that the most important quality we can offer clients is service, with a firm dedication to completing the task at hand, responsiveness to ownership and a commitment to excellence.

Most recently, during the current economic downturn, Lexington Realty International has taken a leading role in renegotiating loans on behalf of our clients. We have a dedicated department that deals exclusively with renegotiations with banks throughout the nation. Our background and experience in this area has served as an indispensable tool. While upholding the strictest standards of privacy, thus prohibiting us from disclosing details, many of our clients have successfully renegotiated their loan terms with our help.
